

## SPORTS AND ENTERTAINMENT

Our innovative and creative sports and entertainment solutions provide safe seating for fans, wide-open spaces and visible dedication to quality and durability. We've built some of the most recognizable entertainment complexes in the country. As part of your team, we care about the finished product and want to collaborate with you to provide not only the best value throughout the building and planning process, but the best project and visitor experience.

### Building Together

We keep the entire lifecycle at the forefront when building a structure. Our collaborative approach can:

- Compress schedules and reduce costs
- Reduce risk for the owner
- Deliver cost and schedule certainty
- Optimize design for prefabrication and efficiency
- Accelerate the design-build process

### Dedication to Versatility

Our clients expect facilities that can be used for more than just their basic purpose. In a world where efficiency is key, ensuring that sport and entertainment complexes are versatile is one of our top priorities. We understand what it takes to build a facility that creates an unforgettable fan experience with room for fields, stages and courts that are just as tough as the athletes and performers that play on them. We focus on designing structures that integrate the various needs of each facility.

**"Wells started on time, closed the building on time and was in budget. In fact, the closing of the building put our general contractor 22 days ahead of schedule for phase two."**

OWNER OF HOTEL INDIGO

## Venue Architectural Innovation – Inside and Out

Wells architectural building solutions bring a level of customization unavailable with other materials. Architectural facades and graphic treatments on wall panels offer endless options to add detail to any building and also deliver unrivaled strength and durability.

Meanwhile, on a building's interior, Wells precast beams and columns used in conjunction with precast risers reduces column counts, providing wider open space for better views. Keeping the focus on the court or stage, where it should be.

## The Wells Difference

With rapid, year-round construction capabilities, no on-site storage of materials and renowned design flexibility, Wells building solutions are ideal for accommodating an accelerated construction schedule often required for new venues and entertainment complexes. Our building solutions require very low maintenance to ensure buildings stand the test of time. The structures we create together are durable, efficient and affordable.
